

Plymouth Summer Packet

June 5, 2020

Dear Parents and Students:

Wow! It is hard to believe the school year is over! We want to remind parents and students that learning is continuous and that the summer can be a great time to extend learning, as well as enjoy the outdoors and relax a bit. Please join us in our quest to help students understand that learning is an ongoing, enjoyable adventure- one that “takes” you places!

This school year, we have all ventured into new territory with virtual learning. It has truly taken us to a place we have never been. We need to continue on this path and encourage students to persevere with the hard work they have done all year. We are sending home materials that will support this learning. This summer program has two components, listed on the next page, for students to complete. In addition, the students will have continued access throughout the summer to Lexia, RAZ -Kids, and Think Central to practice and maintain the skills they have learned this year.

Parents are their children’s first teachers, and your support is critical in reinforcing our expectation that all students participate in our Summer Fun Program. Therefore, we hope you join us in promoting lifelong learning and keeping students’ minds engaged during the summer months. We also hope that you take advantage of the wonderful programs that are offered for our children at the Terryville Public Library.

We wish you a safe and happy summer and look forward to seeing your children again in the fall!

Sincerely,

The Summer Learning Team

Jennifer Parsons, Director of Curriculum and Instruction

Sherri Turner, Principal, Plymouth Center School

Kimberly Loveland, Principal, Harry S. Fisher School

Rebecca Holleran, PCS Math

Jane Rossi, PCS Reading

Dina Schaffrick, FES Math

Cory Mazon and Nicole Levesque, FES Reading

Summer Packet Components

Directions: Students should complete each of the following three components over the summer and return no later than Friday, September 4, 2020.

1. Governor's Reading Challenge- We encourage all elementary students to participate in the Governor's Summer Reading Challenge. The state's form to record the titles of every book read by or to your child during the summer is included. Please feel free to attach an additional page to list more titles if you run out of space.

2. Summer Math Fun Packet- Students need to complete at least 20 activities on the math calendar on a separate piece(s) of paper. Please write the date with each math problem completed.
